

**CHAIRMAN:** Dick Parsley

**VICE CHAIRMAN:** Alan Waller

**COMMITTEE: FOUNDATION**

**REPORT FOR CLUB AGM 2020 -2021**

**KEY PROJECTS and GOALS:**

The Foundation programme within the club was curtailed by the restrictions imposed by the Covid-19 pandemic.

The club qualified to receive Foundation grants at the start of the year and drew down funding of £1000 to participate in a project with the Wellingborough club to provide IT equipment for school children home schooling during the pandemic. Some 65 units were provided via 10 local schools.

**Foundation Giving including Polio Eradication Funding.**

The club Bonus Ball programme has continued virtually throughout the year via the fortnightly Zoom meetings. Members have been generous in their participation and at least 5 winners contributing their dividend back to foundation. Some members who do not participate have contributed directly to TRF. When all is settled the Bonus Ball plus contributions should stand at just over £700 for the full lock-down period.

**BPF Hydrotherapy Project**

Covid restriction caused the hydrotherapy programme to be suspended and thus we have been unable to provide the normal direct support for the BPF programme. However, we did hold an 'at home' cinema night when the film 'Breathe' was on TV. The ticket donations amounted to £195 which needs to be transferred to the BPF.

We were pleased to have 2 of our BPF corporate members attend our on-line meeting regularly and to hear that they have been conducting exercise programmes on-line as well.

**Disability Games.**

Our planned participation in the Disability Game was postponed.
